El Dorado

2013 Brugmansia of the Year

Hybridizer: JT Sessions

Released: 2009

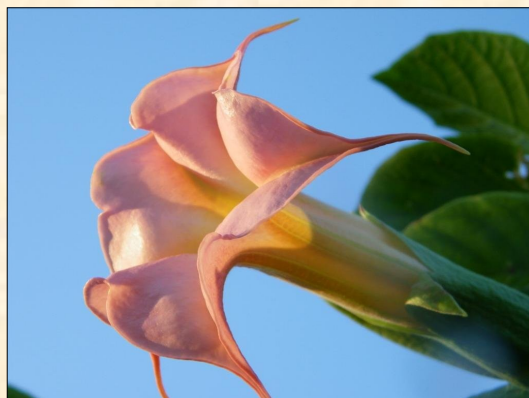

Brugmansia Growers International membership voted recently for Brugmansia of the Year for 2013, and we are pleased to announce El Dorado as the winner! Flower structure, fantastic fragrance and color, along with pest resistance, were some of the qualities that earned this cultivar its nomination. Congratulations to JT Sessions for this widely loved cultivar! Thank you to Al Maas for the informative genealogy chart (right) for this cultivar!

The following outstanding cultivars were also nominated for Brugmansia of the Year:

Maya

Archangel

Angels Exotic

Birgit

Fleming Island Rachel

Charles Grimaldi

Angels Swingtime

Creamsickle

Schloss Burg

Ecuador Pink

Painted Lady

Oro Verde

Pink Beauty

Xena

New Brugmansia Cultivar Names

Brugmansia Growers International would like to announce the following new cultivar names in the genus Brugmansia.

New Cultivar Name: *Brugmansia* 'Elegant Angel'

Pod Parent: Rosalla

Pollen Parent: Rothkirch

Hybridizer: Edna Murphree

Seedling Parent: Dianne Wilson

Flower Form: Single

Flower Color: Pink

Flower Position: Nodding

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Candida

Comments: The flowers on this cultivar originally opened white and stayed that way, but the 2nd flowering they opened finely edged with pink, and over several days the pink spread up the corolla until finally the flower was all pink. Since then all flowers have the same edging and eventually turn pink. Light perfume. Contained in a pot it isn't a fast grower, but easy to propagate and virus free.

New Cultivar Name: *Brugmansia* 'Evelyn'

Pod Parent: Joli

Pollen Parent: Charleston

Hybridizer: Volker Sanders

Seedling Parent: Shannon Crame

Flower Form: Double or more

Flower Color: Pink

Flower Position: Pendant

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Candida

Comments: Well-formed double flowers; free-flowering; little/no bud-drop; so far unaffected by Broad-Mite; good scent. Leaves rather narrow elliptic, completely untoothed, slightly velvety.

New Brugmansia Cultivar Names

Brugmansia Growers International would like to announce the following new cultivar names in the genus Brugmansia.

New Cultivar Name: *Brugmansia* 'Meroo Cascade'

Pod Parent: Domain

Pollen Parent: Ecuador Pink

Hybridizer: Alistair Hay

Seedling Parent:

Flower Form: Single

Flower Color: White/Cream

Flower Position: Pendant

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Cubensis

Comments: Outwardly almost indistinguishable from *B. versicolor*, (but the 'Domain' parent is deemed to be a *Cubensis*). Inherits strong Broad-Mite resistance and the intense lemon element in the scent from 'Domain'. Flowers 40 cm long. Leaves somewhat velvety and darker-than-average green (wet in the photo!), untoothed.

New Cultivar Name: *Brugmansia* 'Opale Etoile'

Pod Parent: Ludger's Windsong

Pollen Parent: Mon Amour de Mareuil

Hybridizer: Brenda Delph

Seedling Parent: Jean Briggs

Flower Form: Double or more

Flower Color: Pink

Flower Position: Nodding

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Cubensis

Comments: Strong growth, keeps shape well, some mite resistance. Flower color will vary from light pink to orange pink with the stuffed skirt usually darker. Very attractive with the mixed shades on the tree together. Grows quickly and true from cuttings. Plenty of pollen and sets seed well.

New Brugmansia Cultivar Names

Brugmansia Growers International would like to announce the following new cultivar names in the genus Brugmansia.

New Cultivar Name: *Brugmansia* 'Peach Fantasy'

Pod Parent: Angels Swingtime

Pollen Parent: Angels Exotic

Hybridizer: Eddie Stiltner

Seedling Parent: Dianne Wilson

Flower Form: Double or more

Flower Color: Apricot/Melon/Peach

Flower Position: Nodding

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Cubensis

Comments: Easy to maintain in a pot, good flushes, sweet perfume. A very pretty flower that has improved with age. No problems known. Cuttings grow very easily. This cultivar can take heat very well.

New Cultivar Name: *Brugmansia* 'Pink Champagne'

Pod Parent: Brilliant Orange

Pollen Parent: Unknown

Hybridizer: Wayne Carter

Seedling Parent: Wayne Carter

Flower Form: Single

Flower Color: Pink

Flower Position: Nodding

Flower Shape: Funnel

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Suarea?

Comments: Free flowering, frequent flushes. Healthy growth, no problems. Strikes easily from cuttings. Submitted for, and on behalf of, Wayne Carter.

New Brugmansia Cultivar Names

Brugmansia Growers International would like to announce the following new cultivar names in the genus Brugmansia.

New Cultivar Name: *Brugmansia* 'Platinum Blonde'

Pod Parent: Ecuador Pink

Pollen Parent: Unknown

Hybridizer: "cestrum_SEQ"

Seedling Parent: Dianne Wilson

Flower Form: Single

Flower Color: White/Cream

Flower Position: Pendant

Flower Shape: Trumpet

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set:

Comments: This is a single white trumpet on a tree shaped plant. It never shoots below the 'Y', which is at 120cm. This enables it to keep its shape and show the pendant flowers at their best. Light perfume, pest/virus free. This cultivar had the unestablished working name "Topsy".

New Cultivar Name: *Brugmansia* 'Strawberry Milkshake'

Pod Parent: Bruce's Pink

Pollen Parent: Alphonse Mucha

Hybridizer: Alistair Hay

Seedling Parent: "cestrum_SEQ"

Flower Form: Single

Flower Color: Pink

Flower Position: Pendent

Flower Shape: Intermediate trumpet/funnel

Foliage: Solid

If Variegated, Type of Variegation: N/A

Species/Breeding History Set: Cubensis

Comments: Tall strong grower, strong textured, long lasting blooms. Smells like Strawberry Milkshake. Strikes easily. Submitting these pictures for, and on behalf of, cestrums_SEQ. Had the unestablished working name "Pink Sweetie".

More Vulcanicolas at La Cocha!

By: Alistair Hay

Here are some more from La Cocha. We went down a road we've not been down before... it was definitely worthwhile! An orange vulcanicola, another pink, a nice vulsa hybrid, and the strange yellow fruit of one which had no flowers, but which seems to be different as it is quite hairy on the shoots.

Orange *B. vulcanicola*

Pink *B. vulcanicola*

Vulsa hybrid

Unidentified fruit

ICRA Business

A number of new *Brugmansia* cultivar names have been placed in the public domain on-line or in electronic publications which do not meet the conditions of publication set out in the 2009 ICNCP — specifically that they should appear in dated hard copy (Art. 25.1). Such names are open to establishment for other cultivars, and their cultivars are open to having other names established for them. Therefore, in the interests of nomenclatural stability, we establish them here. If it transpires that any of these have in fact already been established, then those names of course date from the earlier publication. It is to be understood that the epithets listed here are preceded by the name of the denomination class *Brugmansia*.
